DH TRAIL MAP

RACING DOWN THE PURPOSE-BUILT NATIONAL CHAMPIONSHIPS DOWNHILL COURSE.

The Maydena downhill course is designed and constructed by Dirt Art specifically for the 2021 AusCycling Downhill National Championships.

The purpose-built course is a culmination of what Maydena has become renowned for in terms of challenging riders with its highly variable terrain.

Starting from the midline, the course begins with a fast flow section, which quickly transitions into a series of steep and technical sections with multiple line choices for racers. The lower half of the track switches gears with faster sections interlinked with a series of larger bike park style features.

The downhill track can be accessed via the two uplift options described below.

// UPLIFT OPTIONS

OPTION 1: MIDLINE DROP-OFF

The midline shuttle drop-off option is the quickest and easiest way to get to the start of the downhill course.

- The duration of the shuttle is approx. half the time of option 2.
- Riders will pedal across the midline trail, which is predominately flat but has some short climbs that are easily negotiated - even on a downhill bike.
- Option 1 represents the best option for riders wanting to fit in as many practice laps as possible

OPTION 2: SUMMIT DROP-OFF

The summit drop-off option is the alternate way to get to the start of the downhill course.

- The duration of the shuttle is significantly longer than option 1 - approx. double the time.
- We recommend riders utilise the Skyline and Pandani trails as the most direct and easiest way to get to the start of the downhill course.
- Option 2 is best suited to riders that want a warm up on descending trails as opposed to pedalling across from midline.
