PARTICIPANT INFORMATION

OVERVIEW

At Maydena Bike Park we have over 70 different trails crisscrossing down our hill, resulting in virtually endless trail combinations. Offering 9 unique stages over the course of the weekend, the Enduro Jam combines the best of our trail network with our favourite aspects of racing by using a jam format. Fit for any racers level, we will be hosting an Open Jam and Sample Jam in addition to the full Pro Jam so there is no reason for riders of all skill levels to get involved in the most fun mountain bike event in Australia.

Each day riders have as many opportunities as they like to set times on each of the stages and only their fastest time will be kept. In classic MBP fashion, all liaison stages are going to be shuttle accessed, which means there is no climbing required! Live leaderboards will be active all day for each stage, which gives riders the opportunity to set times and move up the ranks throughout the day.

Ultimately, the Enduro Jam is designed to provide a laid-back race environment, where riders can find their limit while experiencing the wide array of trails at Maydena Bike Park.

ENDURO JAM – PRO JAM

3 Days, 3 Stages per day and Unlimited Uplift Laps to set the fastest time. The Pro Jam is aimed at more experienced racers and will give you the opportunity to race some of Maydena's most technical trails against Australia's best. Day 1 will be Pro Jam only! This means that all 3 stages on Friday will be fast and technical. Day 2 and 3 will share 2 of the same stages as the Open Jam, with an additional Pro Stage in the afternoon. The jam format will allow you to get to know the track and push your speed limits on every stage.
