PARTICIPANT INFORMATION

OVERVIEW

At Maydena Bike Park we have over 80 different trails crisscrossing down our hill, resulting in virtually endless trail combinations. Offering multiple unique stages over the course of the weekend, the Enduro Jam combines the best of our trail network with our favourite aspects of racing, using a jam format. Fit for any racers level, we will be hosting; a Pro Jam featuring the best of MBPs black and double black tech; an Open Jam showcasing a mixture of fast tech and flow, on single black and blue terrain; lastly, a Sample Jam that races down MBP's most rippable green and blue trails.

Each day riders have as many opportunities as they like to set times on each of those stages and only their fastest time will be kept. In classic MBP fashion, all liaison stages will be uplift accessed, which means there is no climbing required! Live leaderboards will be active all day for each stage, allowing riders to set times and move up the ranks throughout the day.

Ultimately, the Enduro Jam is designed to provide a laid-back race environment, where riders can find their limit while experiencing the wide array of trails at Maydena Bike Park.

ENDURO JAM – PRO JAM

2 Days, 2 Stages per day and Unlimited Uplift Laps to set the fastest time. The Pro Jam is aimed at more experienced racers and will give you the opportunity to race some of Maydena's fastest and most technical trails against National and International competitors.

The Open and Pro Jam stages will be run on separate courses, which means all stages across the event weekend will be pro-only stages! Based on racer feedback we have condensed the Pro Jam to 2 days and 2 stages per day, for maximum action on course. Returning this year with a twist will be the "Top 20 Shootout". With riders only getting 1-run down a fifth stage to decide our Pro Jam winners.

All riders will get the opportunity to complete all 4 stages, with the top 20 entering the "Top 20 Shootout" on Stage 5. Riders will be seeded based on their standing after 4 stages, making for an exciting finish to the event.

Returning to Enduro Jam this year, to account for increased demand, we have separated the Open Jam and Pro Jam stages. This will allow riders to get maximum laps, decrease the number of riders on track and ultimately make for better racing in both categories.
